

Dear FCC members -

Thank you for providing a means for our comments and concerns.

My family and I listen to K-Love radio on 89.7 FM in Salt Lake City, Utah and on multiple other radio stations as we travel in the U.S. This radio station provides family safe radio where I do not have to be afraid of what I or my family hears. There are no "shock jocks", no swearing and most of all no raunchy discussions many of which I find appalling. K-Love radio provides positive music which inspires myself and those who listen with supportive messages. Their news stories are current and the many helpful links that they tell us about provide resources for many important social services.

I do not wish to think about what type of programming I will have to shield my family from if another LPFM broadcaster were to take over these stations. We need K-love in our community to provide an alternative to the increasing amount of garbage that we are bombarded with as we scan the radio dial. Good music and broadcasting that teaches moral values and that there is another choice, a positive choice for our ears.

The radio programming provided by K-love is in the public interest because it encourages all of us to seek the best in each other. To forgive and love one another as Christ first loved us. The station promotes patriotism & support of God and country along with the other key values that are needed to keep our country strong.

Since K-love radio is listener supported my comments are held by an ever increasing group of K-love active listener sponsors who choose to provide the funding to keep this broadcasting enterprise not only on the air, but growing. Please do not adversely impact the best FM radio stations there is today - help us keep K-love on the air in all of the communities that need to hear their positive message.
